

# Engaging the Care Network Optimizes Outcomes

Peace Of Mind In Real Time

Are your loved ones in a care facility or independent living?  
Do you receive health and wellness information in real-time?  
Are you able to get updates about their well-being 24 hours a day?  
Do you want accurate, accessible, historical and secure information?  
Do you have to wait for responses from care providers to give you updates?

## DANIO DIARY FEATURES

### CONNECTS YOUR CARE NETWORK

Facilities, care providers, family members and loved ones are notified in real-time

### INTEROPERABLE

Information is able to be shared across your systems and your Care Network

### HIPAA COMPLIANT

Secured with military grade encryption keeping your information private

### SCALES GLOBALLY

Accessible by smartphone, tablet or computer via the Internet anywhere-anytime

### OPTIMIZES THE CONTINUUM OF CARE

This technology improves your loved one's health and well-being

### PEACE OF MIND IN REAL TIME

Helping to improve quality of life and care with instant notifications

“Optimal care occurs within a social environment that supports the development of healthy relationships between staff, family and residents.”

Recommendations for Assisted Living Residences and Nursing Homes, Jane Tilly, Dr. P.H., and Peter Reed, Ph.D. 2009, Alzheimer's Association

Discover the variety of benefits that will help you manage care.

# THE CARE NETWORK: COMMUNICATIONS CENTERED AROUND INDIVIDUALS RECEIVING CARE

## SOME OF THE MANY USES OF DANIO DIARY:

**ENSURE** follow-up instructions are understood and completed

**TRACK** health events such as hospitalizations

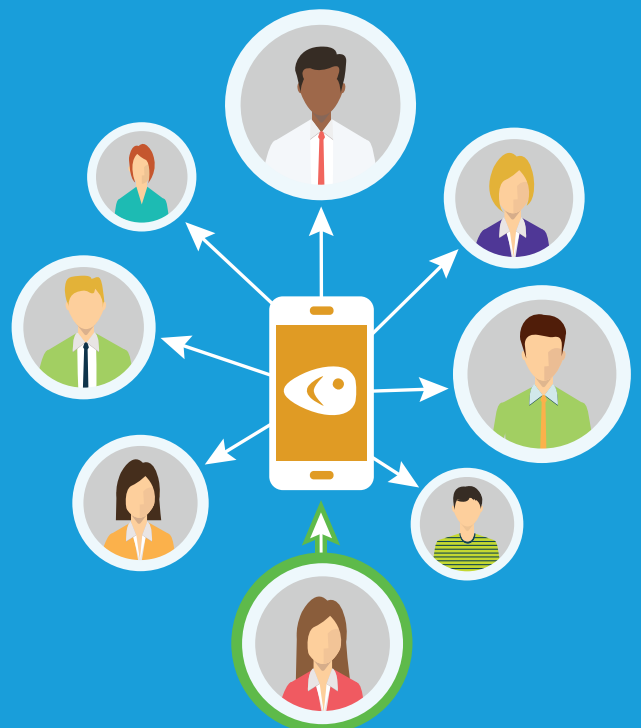

**ASSIST** with preparation for medical procedures

**POLL** your Care Network for feedback on healthcare decisions

**BEFORE DANIO DIARY**, sharing health information was hindered by single points of contact and inaccurate dissemination of information. Danio Diary was developed to that need. The technology allows each member of the Care Network to receive the same information at the same time and in real-time; this includes doctors, nursing staff, family and other care providers.

Healthcare providers capture only 5% of health information during an office visit. Physicians agree that the other 95% of health information is extremely beneficial. Danio Diary enables doctors and caregivers to see a patient's overall "health picture" which plays a large role in providing the best care.
